

Good Day!

Over the next year Lifelearn will be communicating with you, our valued *webDVM* customer, via email. Each quarter, we'll be bringing you website administration tips, clinic news, product updates and Lifelearn specials ONLY for *webDVM* customers!

As always, we want to help you be the first choice for veterinary information on the internet. If you have any questions or comments – please email me!

Looking forward to answering “How can Lifelearn help You?”

Jill de Munnik
webDVM Manager
jdemunnik@lifelearn.com

webDVM Administration Tip!

Edit PAGES faster!

Based on your feedback, the “PAGES” section in the Content Management tool area now loads FASTER – so that you can get into the site’s back end and make any necessary edits as quickly as possible.

To make this section load faster means that the Pet Articles now load separately. To load the Pet Articles, click on “SHOW FULL PET ARTICLES” at the top of the “PAGES” section. The page will refresh with the complete list of Pet Health topics. You can then publish or un-publish your topics or articles as you wish.

Survey Winner is...

McClave Veterinary Hospital of Reseda, California is our survey winner! Thank you so much to all our *webDVM* subscribers who took the time earlier this year to answer our brief survey. McClave Veterinary Hospital receives a \$100 Lifelearn voucher to any Lifelearn product or service.

Product News

Pet Health ID Cards

Using Pet ID Cards eliminates monthly maintenance fees for you and provides a handy credit card sized record for your clients. To find out more, call 1-800-375-7994, ext. 2 or visit www.lifelearn.com/webdvm/index.html
