Petriage is a unique, robust, and flexible telehealth solution to easily integrate virtual veterinary care into your modern-day practice. Designed to optimize practice operations, efficiencies and patient care while adapting to changing protocols, Petriage empowers veterinarians to remotely care for patients while strengthening client relationships by increasing online consultations and compliance.

**Petriage Features:**

**Teletriage**
24/7 client triage tool drives appointments to your practice

Patent-pending Petriage Analysis Symptom Checker provides clients free 24/7 access to AI-driven symptom analysis with increasing levels of urgency, and a corresponding time range for receiving care.
- Accessible through your practice website or the Petriage mobile app

**Telemonitoring**
Increase compliance more efficiently while increasing revenue

eCheck Remote Monitoring enables veterinarians to schedule remote monitoring appointments allowing clients to share photos and videos as needed, providing a more efficient way to conduct post-care follow-ups while increasing compliance.
- An intuitive and easy-to-use Petriage Clinic Dashboard

**Telemedicine**
Virtual veterinary care made simple through PIMS integration for seamless medical record-keeping and invoicing

eConsults allow clients to request a virtual consultation where they can send text messages and share photos and videos with their veterinarian. From within eConsult, the veterinarian can initiate a video call for live, real-time video consultations.
- Custom consultation fees and invoicing allow veterinarians to set their own prices
- Custom scheduler allows veterinarians to easily set up and modify their consultation availability

PIMS Integration = The Petriage Difference
Petriage has read and writeback capabilities to automatically sync triage, eCheck, and eConsult data with your practice management system’s medical records.

How It Works
1. Customize your clinic preferences and pricing and invite clients to join your Petriage portal through email, social, or in-clinic visits.
2. Capture cases by consulting directly with clients via the Petriage app.
3. Deliver consistent, high-quality care online and off, with all communications attached to a pet’s medical record.
